In view of applicant's amendment submitted on 3/22/2005 following non-final office action is necessitated. Applicants limitation of the rate of addition incorporated in claim 1 is viewed as new matter, since the examiner was not able to find support for it in the specification. Page 8 of the specification referred to by the applicants representative refers to the condition of shear rate per second and not an addition rate per minute. Incorporating the shear rate limitation from the specification would indeed render claims allowable.

In view of the above, pending rejections are incorporated here by reference.

***Claim Rejections - 35 USC § 102***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 8, 10-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Matabayas (WO 98/29499).

The discussion of the disclosure of the prior art of MATABAYAS from paragraph 2 of the office action mailed on 7/9/2003 is incorporated here by reference.
